1 no idea

Hi I have absolutely no idea how this will look in the document. Therefore I am just writing some random text to text how Latex will format text.

2 new ideas

Compiling this interesting document is more fun than I thought it would be and I get know why people would prefer using this system than word. It's pretty easy and straightforward with the possibility to use it in your favorite environment.

3 latest thoughts

Writing this document has given me some more ideas. I kind of already like LaTeX now.

3.1 why

Why do I like it? Well I really do enjoy that it's free and open-source and I can hack around it.

3.2 additional thoughts

I just like it.

4 lists

4.1 enumerate

1. first
2. second
3. third

4.2 bulletpoint

- bored
- not anymore
- still?

5 cad

You might ask: What do you do on a wednesday afternoon? Well this is what I have done on a wednesday afternoon:
